HIGH-CAPACITY
PTO HARVESTER

FLORY 870

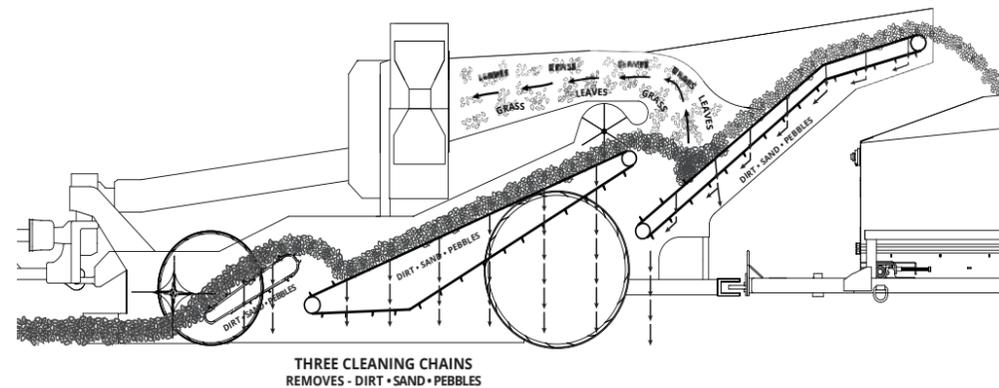

HIGH-CAPACITY PTO HARVESTER

FEATURES

- High-capacity PTO powered nut harvester designed to maximize harvest speed, operational efficiency, and crop cleanliness
- Swivel gearbox option allows for continuous PTO operation while turning
- Industry leading 57" wide throat to close the windrow and prevent missed nuts
- Large undershot suction fan for superior performance and ease of cleaning
- Enhanced suction zone geometry to maximize material separation and crop cleanliness
- Hydraulically driven pickup and conveying systems ensure dependability and smooth operation
- Three cleaning chains for superior dirt separation and reduced dust emissions
- Cleaning chains and drive components are interchangeable with the 860 and VX240 harvester
- Shared frame with the VX240 allows for the Vortex dust separation module to be added and removed
- Easy tool-free head height adjustment with jack mechanism
- More access panels for ease of cleaning and servicing
- Improved side plate wear strip and deflector adjustment
- Standard features include adjustable hydraulic hitch, camera with monitor, and hazard lights with turn signals

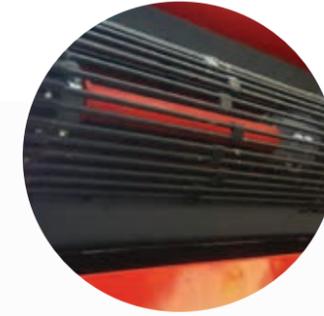

OPTIONS

- Swivel Gearbox
- Hydraulic Power Pak
- Front Paddle Sweeps (std. for pecans)
- Mud Brush (std. for hazelnuts)
- Herbst Valve Kit
