FLORY COE RS8

AVALANCHE SHUTTLE

FEATURES

- The COE RS-8 Shuttle maximizes efficiency with side unloading, designed for high-performance in pistachios in addition to other nut crops
- Display screen and single joystick control with multi-functions
- Intuitive automotive ground drive with automatic shifting
- Power rotating drivers console with suspension seat
- Automatic front steering in either direction of travel
- 3 steering modes with the push of a button: front, 4-wheel and crab
- Cooling package is designed to handle debris, including hinged access for cleaning
- Dual element engine air cleaner with pre-cleaner
- Heavy-duty axles with 6-leaf spring suspension and air bags
- Large low-profile nut tank with high-capacity augers and dual 3-stage telescoping cylinders
- Air conditioned and heated cab with stereo
- LED lights and safety flashers front and rear
- Surround view cameras
- Fail safe parking brake
- Durable powder coated finish

OPTIONS

- 4WD (required for pistachios)
- John Deere 139HP T4 final engine with reversible cleaning fan (RS8+)
- Tier 3 engine for international markets
