FLORY VX240

ULTRA-LOW DUST PTO HARVESTER

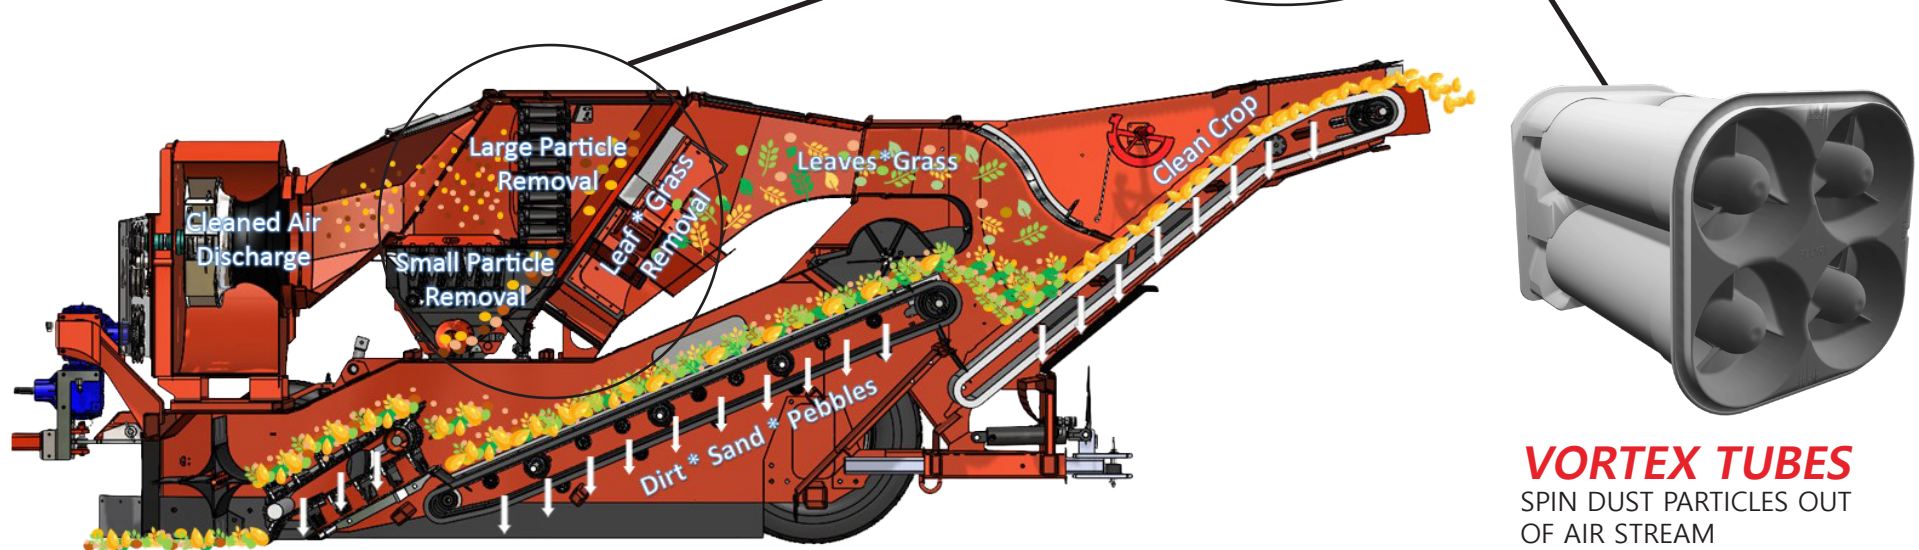

VORTEX
CLEANING SYSTEM

FEATURES

- Ultra-low dust emissions that far surpass NRCS low dust standards without sacrificing harvest speed or crop cleanliness
- VORTEX Cleaning System delivers water-free dust suppression due to the innovative patented design
- Three twin rod cleaning chains for superior dirt separation
- Swivel gearbox allows for continuous PTO operation while turning
- Easy tool-free head height adjustment with jack mechanism
- Improved side plate wear strip and deflector adjustment
- Control screen in tractor with rear view camera system for maximum cart visibility

OPTIONS

- Front paddle sweeps
